<b>Position type</b>	<input type="checkbox"/> Permanent <input checked="" type="checkbox"/> Fixed-term <input type="checkbox"/> Internship <input type="checkbox"/> Hourly
<b>Percentage</b>	<input type="checkbox"/> Full time 100% <input checked="" type="checkbox"/> Part-time: 50%
<b>Starting date</b>	June 1 <sup>st</sup> , 2019
<b>Location</b>	Lunaphore Technologies SA, EPFL Innovation Park, building A, CH-1015 Lausanne (VD)

Lunaphore Technologies is a young start-up active in the medtech field developing a product based on a microfluidic technology to analyze tissue samples for cancer research and diagnostics. Lunaphore is seeking a highly motivated candidate to join our team as Project Manager and contribute directly to the development and growth of the company. We are looking for a scientist-by-training to manage and coordinate activities of multidisciplinary R&D projects, ready to join a hard-working team, passionate about taking Lunaphore to the next level.

### Role/Responsibilities

The Project Manager will report directly to the CTO and will be responsible for the following:

- Plan, monitor and manage projects in the R&D department.
- Plan, monitor and manage projects for V&V of Lunaphore's products.
- Coordinate the projects among the different stakeholders.
- Collaborate effectively with the Sales, Marketing, Customer support and R&D teams in order to achieve the goals of the projects.
- Maintain the team awareness of potential interdependencies with other projects and their impact.
- Manage project risks.
- Monitor overall progress and use of resources.
- Apply appropriate technical and quality strategies.
- Report projects progresses in clear and detailed manner.

### Required qualifications

- You have a master's degree in Molecular Biology, Biomedical Engineering or a related field.
- You have good experience/or diplomas in Project Management.
- You have experience in V&V activities in the medtech/IVD field.

### Required soft skills

- You like interacting with people, bring advice and solutions to them, and demonstrate good communicational skills.
- You have the ability to adapt in a constantly changing environment.
- You have the ability to collaborate with others by working in a team, share information with peers and managers.

- ✿ You demonstrate critical thinking and analytical skills.
- ✿ You demonstrate good organizational skills and attention to detail.
- ✿ Fluency in oral and written English is a must.

### We offer

- ✿ A multidisciplinary industrial project within a young and strongly growing high-tech startup.
- ✿ An international working environment with high level of diversity and strong network.
- ✿ A highly interactive team with strong personal and technical qualities.
