Percentage	<input checked="" type="checkbox"/> Full time 100% <input type="checkbox"/> Part-time: %
Starting date	ASAP or to be determined
Location	Lunaphore Technologies SA, EPFL Innovation Park, building A, CH-1015 Lausanne (VD)

Lunaphore Technologies is a young start-up active in the medtech field developing a product based on a microfluidic technology to analyze tissue samples for cancer research and diagnostics. Lunaphore is seeking a highly motivated candidate to join our team and contribute directly to the development and growth of the company.

Summary

We are looking for an intern to provide support to the Product Manager for product launch related activities. Working at the interface of R&D and marketing, the intern will need excellent understanding of the techniques and applications, and is ready to join a hard-working team, passionate about taking Lunaphore to the next-level.

Role/Responsibilities

This position reports to the Product Manager. The intern will:

- Support the Product Manager in product-related activities, such as preparation and maintenance of the material required for releases and product launches (User manuals, training material,...):
 - Update of documents
 - Coordinate language translations of product material
 - Help in coordinating activities between R&D and marketing for documents releases
 - Propose improvements of such documents
- Support the Product Manager in maintaining and implementing product planning timelines.
- Perform Market Research for current and next generation applications and products.
- Reporting to the direct manager.

Required qualifications

- Ongoing or completed Master degree in biomedical engineering or biomedical sciences or similar field.
- Knowledge about immunohistochemistry is a strong plus.
- Fluency in oral and written English is a must. Additional language skills including French, German and Italian are a strong plus.

Required soft skills

- You demonstrate good organizational skills and attention to detail.
- You have the ability to adapt in a constantly changing environment.
- You like interacting with people, bring advice and solutions to them.
- You have the ability to collaborate with others by working in a team, share information with peers and managers in an efficient manner.

We offer

- A multidisciplinary industrial project within a young and strongly growing high-tech startup.
- An international working environment with high level of diversity and strong network.
- A highly interactive team with strong personal and technical qualities.
