Starting date	01.05.2020
Location	Lunaphore Technologies SA, EPFL Innovation Park, building A, CH-1015 Lausanne (VD)

Lunaphore Technologies is a young start-up active in the medtech field developing a product based on a microfluidic technology to analyze tissue samples for cancer research and diagnostics. Lunaphore is seeking a highly motivated candidate to join our team and contribute directly to the development and growth of the company.

Summary

We are looking for a Project Manager to manage the scientific projects between Lunaphore and its academic partners, contribute to the writing of scientific publications, submit applications for public funding and perform literature review. The candidate has experience working on a multidisciplinary environment, managing multiple projects contemporarily and dealing with hard deadlines.

Role/Responsibilities

- ✿ This position reports to the CTO
- ✿ Ensure the good implementation of scientific projects in collaboration with academic partners, being accountable for timelines, budget and scope
- ✿ Contribute to the writing of scientific articles and white papers
- ✿ Draft applications and manage the submission process for public funding to finance collaborative projects with academic partners
- ✿ Plan budget and resource allocation for scientific projects in collaboration with academia
- ✿ Perform regular literature review in all fields of interest of the Company, and actively share interesting findings
- ✿ Report the status of the projects

Required qualifications

- ✿ PhD degree in Life Science, Biomedical engineering or related technical fields
- ✿ Experience in grant writing is a must

- ✿ Experience in writing of scientific publications is required
- ✿ 3+ years' experience in project management
- ✿ Previous experience with immunostaining, in situ techniques and image acquisition/analysis is as a strong plus

Required soft skills

- ✿ You demonstrate good organizational skills and attention to detail
- ✿ You enjoy reading through and analyzing scientific publications
- ✿ You are capable of connecting the dots among multiple scientific fields
- ✿ You have the ability to adapt in a constantly changing environment
- ✿ You have the ability to collaborate with others by working in a team, both internally and externally
- ✿ You demonstrate critical thinking and analytical skills
- ✿ Fluency in English is a must
- ✿ Excellent scientific writing skills are required

We offer

- ✿ A multidisciplinary industrial project within a young and strongly growing high-tech startup.
- ✿ An international working environment with high level of diversity and strong network.
- ✿ A highly interactive team with strong personal and technical qualities.
